

Steps to Install Microsoft (MS) Office 2021 for Free:

- a. Run the Microsoft office deployment tool
- b. Run the command shown in the video
1. Paste the **Set up** and **Deployment** tool file to **C drive**. (name it **Office 2021**)
2. Open the file then click open the **Deployment tool**.
3. If it asks “do you want make change to the Device” click “**yes**”.
4. When this below window opens click accept “**yes**” as shown below and click “**Continue**”.

Next when this window opens.

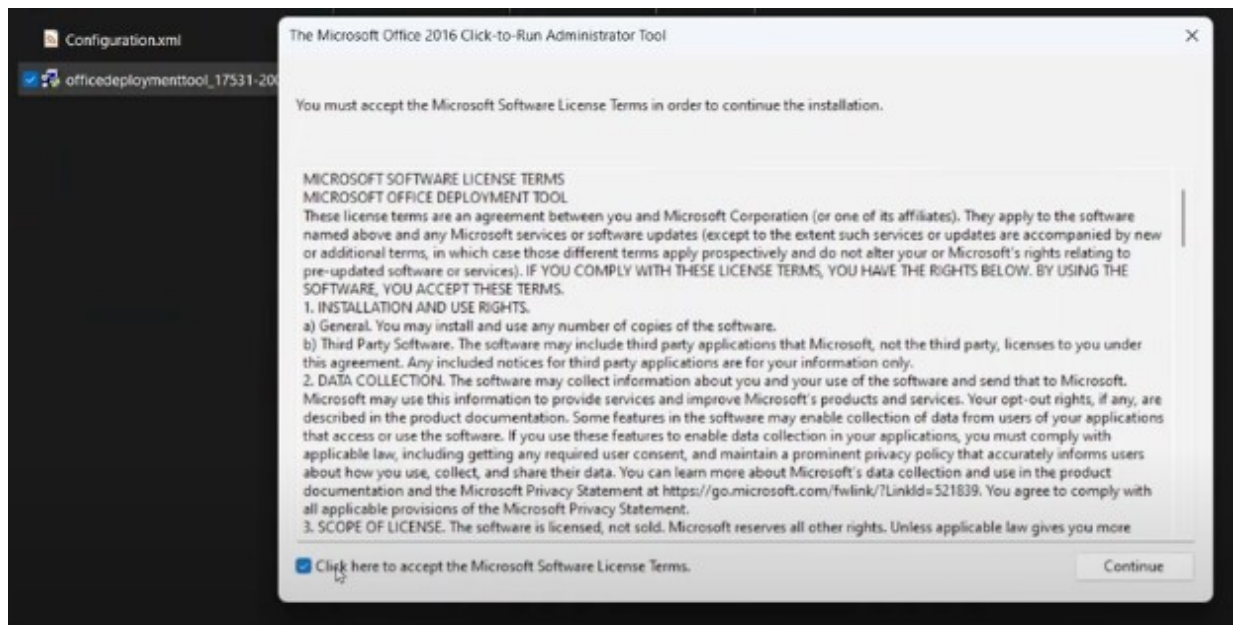

Select a folder where to instal the files. Go to “**this PC**”

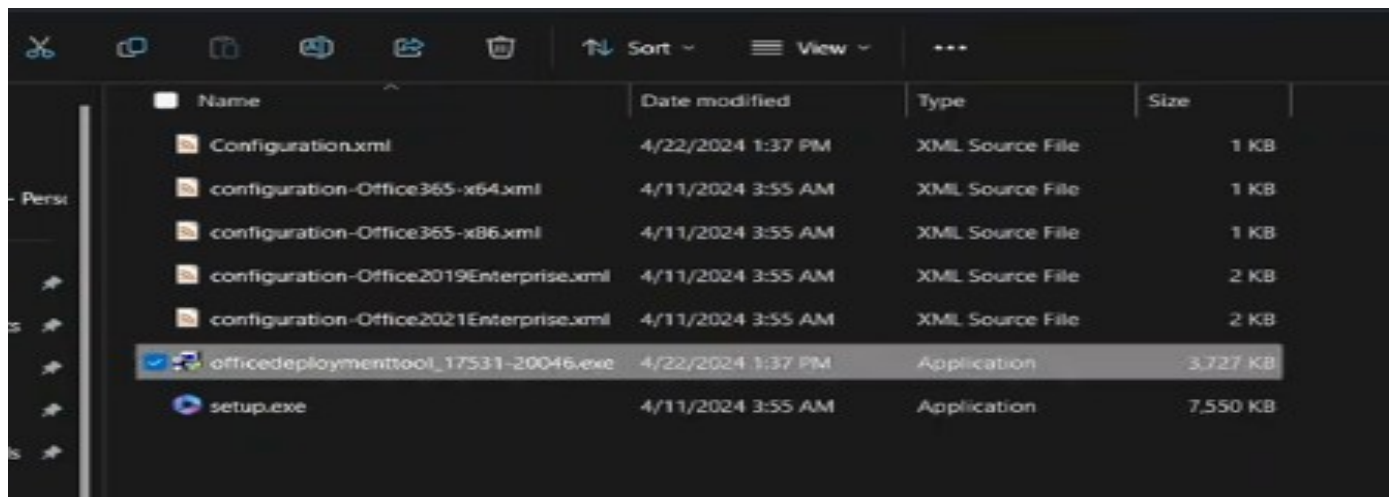

Click the file you paste **MS Office 2021. 64-bit** or the folder that you pasted to **C** drive before.

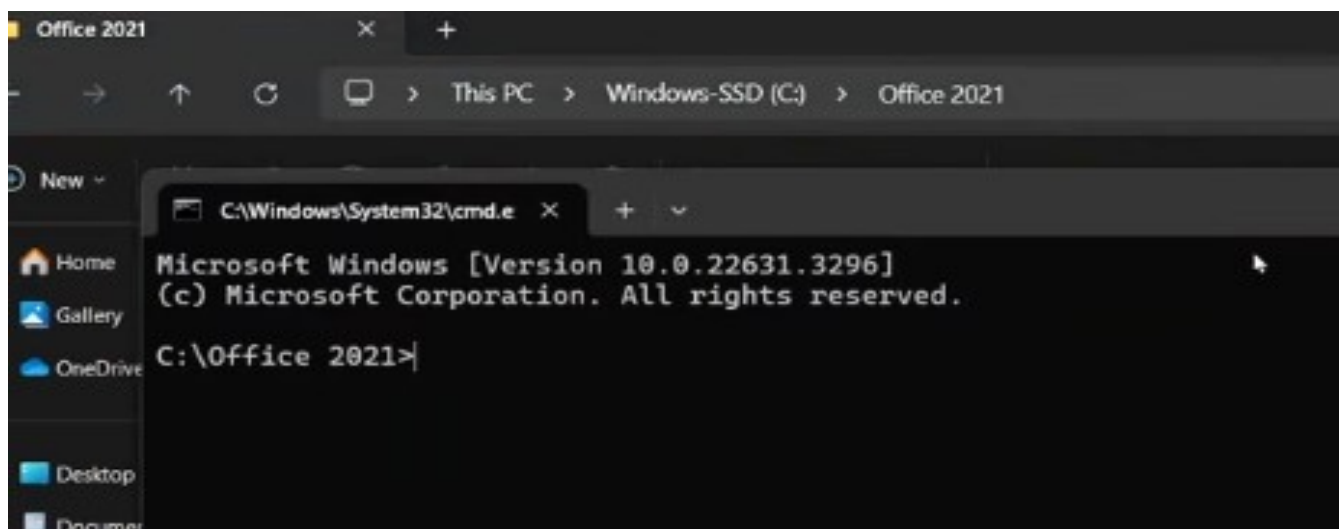

Click ‘**OK**’

You will see the files down loaded as below.

Now Go to your address bar and type “CMD” hit enter.

When you come to below page – type **setup space / Configure.xml**
Or type configure and hit Tab it should fill auto as below.
Hit **enter**. Allow to make changes “Yes”

Your Office will be downloaded and activated.
